

# Indian Mountain

## Sustainability Features

### Eco Efforts

The park has a recycling program that collects aluminum and plastic. The staff and public participate in recycling. Indian Mountain also uses energy efficient lighting and adjusts thermostats in relation to season and occupancy.

### Recreation

The park includes two small lake that offer the fishing and boating opportunities for the public. Emission-free pedal boats are available for rent.

### Historical/Community Significance

Indian Mountain is located on a reclaimed strip mine. The first commercial airstrip in Tennessee is located on the Park's grounds.

## Moving Forward

### Energy Conservation

The park hopes to get a new visitor's center which will use solar generated electricity and a geothermal unit for heating and cooling.

### Expansion

Indian Mountain actively seeks mining relics to expand its museum collection.

## Park Highlights

- Located in Campbell County
- Visited by over 350,000 people in 2011
- Over 4 miles of trails in park
- Some of the trails are paved and are ADA accessible
